EXPERIENCE

ProCohat Technologies Pvt. Ltd., Nagpur — *Project Manager*

Jun 2024 – Jan 2026

- Led end-to-end delivery of 5+ concurrent client and internal projects by translating complex business requirements into structured sprint plans, milestones, and cross-functional execution workflows.
- Identified operational inefficiencies in project tracking and independently introduced Jira as the organisation's primary project management tool, driving full-team adoption within 3 months.
- Built Jira dashboards and JQL-based reporting frameworks used in quarterly stakeholder reviews, improving visibility into project timelines, blockers, and delivery ownership across teams.
- Conducted structured requirements-gathering sessions with stakeholders across digital, product, and creative workstreams to define scope, align priorities, and manage delivery expectations.

Projects:

- Delivered website and digital product initiatives through scope definition, sprint planning, milestone-based execution, and cross-team coordination.
- Analysed user journeys and developed wireframes for a healthcare application serving dementia patients and caregivers, translating clinical and caregiver needs into actionable product requirements.
- Partnered with SMS Limited's internal teams to gather BI requirements and support structured planning for Power BI dashboards focused on inventory visibility — bridging business needs with technical execution.
- Managed production-led creative initiatives, including shoots, post-production workflows, podcasts, and branded digital content for TEDx, TCC Podcast Channel, ProCohat, and Next Weekend.

Responsibilities:

- Translated client and business requirements into project plans, sprint tasks, trackers, and execution priorities.
- Ran sprint ceremonies and followed up on blockers, dependencies, and ownership to keep parallel projects on schedule.
- Managed onboarding, scope alignment, stakeholder communication, feedback cycles, and project reviews.
- Maintained Jira workflows, dashboards, and execution
